

SUMMARY OF RESULTS OF THE 1986 IRISH

INVITATIONAL MATHEMATICS CONTEST

The Fourth Irish Invitational Mathematics Contest was held on Tuesday, March 18, 1986. Invitations to participate in this were extended to all those who had scored 85 or better in this year's INMC. Examination materials for this were also supplied by the MAA. This was an essay-type examination. Contestants had three hours in which to answer 15 questions with positive integral solutions. Partial credit was not given: a question was either marked right or wrong. Score cards were returned on behalf of 80 of the invitees.

William Whyte, who attends Newpark Comprehensive School, Blackrock, Co. Dublin, was the top scorer in this contest. William scored 8, and is to be commended for his performance.

Finbarr Holland

ERRATUM

On page 8 of Bulletin No. 16 the name of one of our new members in NIHE Dublin is misspelt: it should be Dr B. Lenoach.

PERSONAL ITEMS

Dr Frank Hodnett has been appointed Associate Professor of Applied Mathematics at NIHE, Limerick.

Dr Robert Critchley has been appointed to a Senior Lectureship in Mathematics at NIHE, Limerick

"T_EX is a program for creating beautiful books, particularly books containing a lot of mathematics." Donald E. Knuth

T_EX is sponsored by the American Mathematical Society.

PCT_EX is the implementation of T_EX for the IBM-PC. It will run on any PC or PC-lookalike with full memory (640k) and a hard disk.

PCT _E X	\$249	Full T _E X implementation
PCdot	\$100	Driver for Toshiba, Epson, etc
PClaser	\$225	Driver for LaserJet, LaserWriter, etc
Preview	\$250	Driver for PC screen
